SUMMARY

Experienced Data Analyst with 5 years of experience at EMC Telematique. Proven expertise in data analysis, statistical modeling, and reporting. Strong problem-solving skills and ability to translate complex data into actionable insights. With a strong foundation in SQL, Python, Tableau, and Excel, specialized in data science, I dive into data to extract transformative insights. My journey has equipped me to manipulate, analyze, and visualize complex data, turning challenges into innovative solutions. Applying for the Data Analyst position at Amini to contribute to data-driven decision-making and drive business growth.
